# Discovery of the Supreme World

Mankind, having no origin, always hankering after eternal peace. Since very early age, in search of surpra mental love cradling in glowish heart. Never feel super natural satisfaction even a drop in the technicolour globe. Day after days pass, increase limitless worldly demands. Time look forward very slowly; unsatisfied within, earnestly wait in fermentation of new focus. Just footing on the dust of earth create in sweet mind of unparallel great finer land.

On the way of life long, starts the chapter of happiness-sorrow, loss-profit, defeat and win. People always covetousness of endless fate, exaggerated crawling with bogus expectations, just to avoid disappointment. The unconscious mind dive into terminating depth. Waves of hanging thoughts, reach in Psychic method, like tyre of chariot. Man prisoners in false vanity of nature, so earnest struggle for salvation. Who will release, finding none. It is not a brick made big palace or cell of jail. So wonderful erection, absolutely different from everything; erected concretely by shadowy fate-illusion.

By slow shivering, waves of mind float in scattered atmosphere. No rest, thought only surrounded in mental camp. Always hiding in mirror of false love. Any nook and corner doesn't get nectar touch of affection in the round earth. No sign of true Divine love, neither, there were selfishness of friendly existed. Presence only unsatisfied avarice. Therefore the darkness in overwhelming tune of unfulfilment, ring up in sensitive part.

No advancement of mental wing, flow of supra mental world stop here. Some kinds of feeling realise, can not expressable. Mind keep silence in vanity camp, just to check up free movement, no motion at all, totally controlled. Restless deeply for complete salvation. Scattered thinking stop no more, turn into concentration. Some miraculous vision awaken with Divine touch—Do you not feel goodness on the earth at all ! Therefore come here on fly just edging of the new super fine globe.

Will you find unmentionable beauty just to sitting in a corner of limitless universe ! It is so splendid, unspeakable; only for realization.

So nice explanation, too beauty, how far will enjoy that supreme ray from out side of the worldly line ? Till dive into supra mental ocean, won't be able in any way to look after new step. So far would across the so-called false love and vanity of mental prison, realize the pleasure and new technique of innumerable flames Divine. If mental wings reach here on fly through media of VICTOR glowish light, must be able to invent fine greater world. Any one come here never feel to go backwards to the dust of the physical globe. Only full of unique grandeur supreme Land. Not at all false waves here or dirty atmosphere. Transcendental peace and love omnipresence in extraordinary ground long age since, throughout the unmentionable period.

There are so many obstacles of uplifting gates crossings and prisons of impediment never shown here. Just to feeling of grand Salvation, depth of mental mirror sure to be fulfilled. So far advance, towards greater new inner land, dust of Physical earth must be separated, vanished sure. Mankind live in which place, atmosphere poisoned with full of jealousy and hypocricy. The undivine devil buggards creating dirty unhappiness among the human race, move with louder destructing laugh as well slow poison, injecting in atmospheric environment.

There are nothing vulgar elements who create disturb in the vast area of broader globe. Full of complete peace presence over here. Grandeur light dazzling in flames Divine. Observing everywhere like superfine Heavenly technicolours leaves. By soft touching of those evergreen branches, blossomed the beautious flowers. So fine permanent environment exist over here, in comparison of temporary beauty of the universe, vanish totally. Smiling flowers' fragrance spreading, welcome new comers who step in.

No noise at all here, only Force Divine rehearse. Neither joking nor negligence, only stream of Supreme Love and very warm beauty permanently presence. Angels spreading wings come down to the Supra mental flowers garden. Species flowers never take birth in the mud of globe. Learnt the blossoms under the name and style 'PARIJAT' of Heaven. Dancers of Land Paradise, steaching necklace of these same, thus form splendid dramatic stage. Higher concentration of meditators break up by spreading temporary odour.

The wonderful flower not like that ! The holy Angels of this Super Land never presence to destroy grand concentration, on the way of Supreme Divine way. Full of absolutely concentrated situation omnipresence. There is not a single insect in this special one; full of super natural scent with evergreen Divinely peace. Flowers of green leaves decorating in the nice wings of Angels, circulating exquisitely beauty there in.

The endless area of the greater globe full of complete calmness. Soundless ascending extraordinary Force with full grand speciality. There are nothing hugger-mugger environment observe at all. On the way of ascending Force, mental wing bow down. Just for holy arrivals of Angels, flow of true Love blowing in the grove. The nectar touch of meeting Divine reflect in supra mental mirror. Not only subconscious mind reach here; concentrators of special meditation also fly over in true and fine place, surrounded by the special flowers.

Every one intend to proceed unparallel place, full of pleasant environment. In spite of wishing can not start here. Wanted concentration of Force Divine! Merely a body of flesh and blood may live in the Physical world. Motion of that structures are very limitless. Only grand mental Power is great property, whose entrance possible definitely, from limit to greater Super in. Mind always covered with gloomy darkness in vanity mirror. Therefore dive into certain phenomenon.

In a very special moment mental brandish fly-over here. Ascending of Super Force, as soon as possible advance, ever beautiful screen must be flashed out of Greater in. With thirsty depth of Super Love must float in enlightened transformation.

By touching tender heart Divine messengers embrace concentrated mind. Feelings of supreme pleasure adopting each others. Petels dance with evergreen leaves by technicolour smiling. The south wind of globe cannot enter in there. Totally blocked up.

One some development of unique speciality, extraordinary flow spreads. The stormy weather not at all found, neither dust scatters like Physical globe. Only fine technicolour springs observe. Necklaces of flowers garlanded side by side of it. Full of very fine colourings like countless rainbow dazzling every moment. Sometimes a special type of Supreme flow twinkling in. Therefore Divine happiness observed in any point of the grand Land. Never would be fruitful like that of.

There is none alternative way to uplift on the Supreme world till Force reflect in mental sky. Concentration of strength focus specially in every point of view. By transformation Psychic chapters concentrate. In connection of grand link ever beautiful LORD roam in Super vast area. Having no origin, people thought particularly one Heaven, fabricated with glorious green room on imagination; in comparison of that, the grand world situated in much more higher aloft.

Once arrival here never go down to the earth again. Every one transform as messenger Divine who can across the stage after mental stages. They also travel in Supreme grove. Getting tender touch of finest LORD residing over here with comfort for uncertain long age. Not at all breakable. Neither disturbances nor any hammerings can strike over here. Once reach to the goal, never chance to go downwards. None express anger or interdiction to each others. The mentality of benediction vanish for ever among the finer Land.

There is no timing period mentionable over this place. Every thing shows absolutely new fundaments. No old customs and print touch over here. Ever lasting youth and limitless beautiful chapter glowish like anything. Extraordinary blossoms welcome the beautious Angels by spraying nectar smile.

There is chance to fall down from the imaginary Heaven focused among the people. With taking authoritative forbid fall on. Flowers also circulate fragrance of vanity from that place. So that URVASI, dancer of the same imagination, never hesitate to break down higher concentration of meditators by using PARIJAT in her chignon.

So Long mental stages lift upwards, illusive dancers must have to scatter long far by magical curved eyed tricks. What kind of typical Heaven ! Where from ballets throw the uplifters ! PARIJAT Heavenly blossom, learnt, there is none like that; endless chapter of discussions continued since long age.

Shadow of vanity floated in the dust of earth. Men, beasts, birds, trees reflect every where in same jugglery. If covered with illusion, what is the utility to waste energy of thinking about so-called Heaven ! Then what difference exist between the PARIJAT and worldly flowers like rose, Daffodils, night Queen etc.

By dressing the braid of hair deviated from the Supra mental way, each and every of the same leaves reflected vanity. Where interdiction presence, so many gods are embarrassed by the demons of lower level, how far it may be lovely place ? Then what difference shows between Heaven and globe ?

People meditate by inspiration. Just to avoid domestic trouble by force deeply asceticism in lonely environment. With great ambition devote himself in such a Divine way by which may proceed to the Heaven. On the link, PARIJAT observe every where.

Beautiful dancers are await, set in horizon with vanity of tactics. So many gods are as 'INDRA' the king of Heaven, 'BARUN' the king of water, 'BAYU' the king of wind, 'YAM' the king of deaths, become intense of emotion and charmed to enjoy the ball, cocktail dance offered by Ramva, Tilottama and URVASI etc.

The pleasant focus of Heavenly reflection in meditator's inner sight. Doesn't want to stay any more in the universe. By rigid devotion to avoid false attraction of wife, children become very emotional to obtain grand touch with gods of nice Heaven. Motion of mind reach fast edging of imaginary land by transformation. Gods are anxious, who come forward to the dancing platform of Paradise ? Why others will enjoy our dream land ? Why some one will be calculated among ourselves ? So violent flow with jealous hypocricy !

Consulting each other, people also reaching to us. Should not delay any more ! Call at once ever lasting youth and exquisitely beautiful URVASI. On the way to mental aloft could create disturb by her illusive tactful dance. Concentration of meditators' driven out of the link for Heaven and backwards draw to the deceiving woman. Where so vengeance !

Never accepted any one among them, how the place calculating as Super Land ? There is nothing ocurrence in greater world. The Ballets of Heaven can not enter there. In comparison of so-called Paradise there are lot of beautiful existence.

Dancing artists ready by the request of gods. Directed to URVASI—LO ! man raising to the Immortal Land on the way of higher concentration. Break up at once deep dedication. Observing—what harder contemplation doing ? By his strength of spiritual Force gods must have to be defeated. The link of deep meditation break down by your illusive dance.

URVASI giving a vacant smile dressed with attracting necklace of PARIJAT come across behind of meditators' mental screen. By playing look forward, ornamental sound created disturbance on the way of Divinely globe. So gorgeous beauty reflected, ordinary soul sure charmed at a glance.

Dancing star of the Heaven in conflict, many devotees' of superior concentration broken ! Actually special one ! Still can not remove Psychic wing on the link of devotional thinking. So deeply concentrated, at any cost, arrived almost very near to the Paradiseal environment. Then what is the way to get rid of ! Nay, any more time should not be given. Otherwise must arrive among the reign of 'INDRA' the king of Heaven. So lovely woman would accept defeat over here ? That can not be done in any way. Thinking a little, started new tactics of vanity. She is not alone now, more companions amalgamated.

Finder of the Paradise concentrated. Flames of light reflected on his mental screen. Too much pleasure felt, where gods are wondering, visit, in the grand way of PARIJAT circulating fragrance. Thinking—once he also would have to be dived in dangle of beauty. So become intense of emotional mind. Within sparkling flames lovely, dancers floated. How wonderful dance! Astonish to see them, never observed so nice ,artists in the Theatrical platform of the globe even.

Mental focus transform glowish. Man thinking, what is this ? Then actually got up in Heaven! Very splendid feelings, never fall on the earth! So ever beauty, worldly atmosphere all vanished.

Suddenly obstruct by disturbance on the way of uplift. Mind restless to spectacle the tricky woman. Concentrating mood become lighter. Felt, some one reflects dancing beauty behind of hidden Psychic screen.

URVASI unspeakably pleased. Just to remove the mental screen of meditator's vacant expressing smile, foot in extraordinary mood. In the mean time, more hypocrite women of the Heaven, concealed under the shadow of PARIJAT. Thereby circulating false Love, still hypocritic actions of smile continuing on. Control forcely on higher aloft, laughed with demonic voice.

Man fall down from long distance of Supreme way. His concentration of godly place torn up back to curtain. Meditator much more charmed to observe charming beauty of the dancer. Tactful woman changed his thinking of higher link.

Now thoughtful eyes opened. To gaze attracting beauty, tried to leave meditation. Dancing star appeared very close with feigning eyes. At the moment devotional Power so fallen couldn't move first.

Conflict—Are you Godess of Paradise, isn't so ? It was beyond my imagination, so earlier have a sacred visit of you ! Speak please, who you are ?

URVASI kept silence. Meditator defeated now. So that, to her beautiful face, reflected glow of winners' print. Only mental wing covered by circulating vanity.

Soundless looking, Devotee spoke, who you lovely ? Are you Diety of holy Heaven ? If so, why not talking ? I love you much more. Particularly for that reason, so hard mortification !

Voice come out of long villainic silence—'Bow down to my feet'. I am your confirmed holy Godess, the lovely of Paradise, whom for deeply concentrated since years long. Descended from upper globe for complete your desire. Any more yourself need not strong devotion. Sure take shelter to my nice feet. There will be none more except I.

Concentrator lost flames of light Divine, doing gross mistake. Bowing down to the feet of dancing lovely, uttered with joy, bravo ! how splendid you are ? What shall I address you ? How nice extraordinary beauty posess yourself ? So long years after, visit ever nice deity of Heaven !

URVASI delivered vacant smile hypocritically. What is to be spoken more ! Become successful to day, just to down on the lower level from the link of superiority. How grand pleasure feeling to put on such a deceiving tricks !

If you Lovely Divine, why come unto me ? Could uplift in the Heaven at ease ! Myself gladly could live along with you in comfortable environment ! Will you stay with me for ever ?

Illusive URVASI being back footed now laughed a dreadful laugh, can you not recognise—who am I ? Speaking truth, myself cheat. Dance, in presence of gods of Heavenly Platform. My special reference, beautiful ballet of that existence and very fond of PARIJAT; as well garlanded the necklace of same blossoms. By offering the wreath force to fall down the meditator in lower ground, from the way of higher link. Gods are satisfied to enjoy my various dancing tricks. That is the duty of mine to satisfy them. Myself broken deep concentration of many devotees; so far, fell down from the beautiful atmospheric environment.

You got up too higher position but bound to fallen. Sure could reach in Heaven, just to look forward a little. Yourself become strong hermit. Gods were very anxious regarding reach to goal final. They do not like some other's transform in Diety by devotion. That is why called on me. Understand now ! Who am I ?

Meditator fallen more. So that concentration of waves become lighter. In spite, come forward of the seat by attraction of lovely woman. Whoever, please come to me. I will embrace you. Forward look in vain, can not touch at all. Delivering a feigning vacant smile, move out of touch.

Being disheartened cried with aching tune, realized now, who you are ! 'URVASI' break concentration by tricky play of extraordinary beauty. I also downfal beyoud imagination. Villainic dancer ! What benefit got yourself to make harm in this way ? Did I concentrate myself vanity of PARADISE ! Where clique, hypocricy, jealousy presence, how far it may be grand place ?

Since long ancient age, learnt the name of PARIJAT. Here also shadow of illusive focus !

Confirmed, march after in Paradise, must travel in PARIJAT grove. Intended, myself would be changed like one of godly. Dancing platform presence in Heaven also ! By drinking liquor there, too much become intense of emotional, enjoy the fine dance of URVASI !

Global atmosphere also similar. Countless of devil persons roaming here about. Thinking of peace totally broken in every moment by tactful females, peeping in door to doors. Deceivers in Heaven too, thus presence in the people constantly.

URVASI—how dreadful notorious ! Your necklace of flowers also full of poison. Thy Lower level dancing platform garlanded by rotten Parijat which looks in dustbin, not in Divinely place. Fie on me ! Never must not be proceeded on the way of imaginary Heaven ! Be off vulgar ! From my lens sight.

By circulating destructive laugh, fly away the dancing ballet from the soil of mental ground. Just eve of departure, uttered one word only—saw my tricky game ! Stay, being strengthless like a lame.

Hypocrite vulgaric dancer vanished in long far horizon. Meditator downfal on the lowest level of concentration. Super strength lost to day. Actually he becomes emaciated, weak and courageless hobbling. Just changed into most ordinary man. Therefore spending time with sorrow, unhappiness. So, no observation of glow reflected.

Day after days passing. With scattered mind feeling monotonous and conflict, adopt, in which way meditation start again ? In one sense, by covering notorious net finished him. So that eagerly waiting for golden chance, with cautious once more.

In special one fine moment, concentrated himself in new method of devotion. Not yet, can not realize at all, in which tune could be dived into deep thinking. Certain one, frequently moving behind the Psychic level and applied vision—the Heaven particularly meditated yourself, that is nothing but reflection of shadowy illusion. No existence of Divine self there in.

Now condensed in different and modern forms. Thyself must be able to discover the ever greater world. Jealous gods are not observed over there, neither no admittance of dancers. PARIJAT also never blossoms just for giving a vacant smile. Flowers too excellent there, environment sure super fine with unique beauty.

On the way of modern method, dived himself in special concentration. Lovely LORD ! Vanished in direct true Divine link by circulating nectar smile on focus of grand flames.

How painful trouble felt after fall down from the way of devotional contact, is disappearing for ever now. What dirty darkness overwhelmed in mental stage ! by reflection of fresh energy, took farewel totally. The fine vision spray like glow. Neither hypocricy nor false hope presence over here. Inspired—this is the actual way of advancement towards the greater world.

By inspiring intense of emotional pleasure, meditator concentrated in fruitful technique. No gloomy observed. Reflect only dangle of supreme light. He must gain true and beautiful super world in this way.

No voice come out, pin drop silence. So deep thought infused into which poisonous atmosphere, disappeared in everlasting Divine influence. By the direction of supreme victor, devotee concentrating step after steps in follow of fresh focus.

The back days of downfall sometimes peeping through mental wing, in spite of march forward with joy. So that there is no obstacle on uplift.

The memories of back ground gone, therefore, pleasure increased in new form. Psychic stage sunk in flames of super way, in search of supreme land of lovely LORD.

One grandeur dawn of ever beautiful light, wrong method dropped in the brandish of limitless factor. Enjoying fine pleasure, so excellent, beyond imagination. On the way of brightness, mental wing of concentrated person, look forward to Divine link, just crossing the screen after so many steps. Just observe, there is no reflection of false idea in the very particular way. Even shadow of vanity not thrown. Meditator now actually advanced too higher lebel, on the way of complete concentration in holy focus of nectar environment.

Finest LORD wandering in the flares of extreme glow. The decent petals moving with the touch of holy wind in the nice green grove. Merely permanent beauty and true love of stream circulating over here. The consecrated messengers are roaming in supreme globe.

In mental Focus of concentrated person, nice visions are throwing with high expectations. It is sure, he will secure goal in this chance. In so finer place advancing onward, never could downfall from that super uplift. Therefore, condense more deeply with new refraction of miraculous hope.

Once reach in greater globe, there is no possibilities to fall on the ground level. Any one aloft here, all change into Divine messengers. These too can take part in devotional creation. Sometimes evolution in supreme also. No sorrow, pain presence over here. Once vanished in lovely LORD's heart must be transformed in greater one.

In the holy seat of higher supreme, man sure concentrate. Therefore advanced far long crossings, so many disturbances. By circulating supernatural brightness, Omnipresent LORD reflect with nectar smile. Already surrounded by the extra-ordinary blossoms. They too awaken to expand petals.

The mirror of mental concentrated person enlightened with the grand light. Psychic sky thickened like full moon. The sorrow of gloomy atmosphere gone for ever. If condensed with clean heart, clumsiness of mind must be gone out. So required only deep attachment.

The glow of LORD, what circulated in greater globe, that is refracted in mental curtain. Therefore unique attraction, if true touch of lovely omnipresence, once at any cost, must obtain His cordial embrace.

The mental srceen of meditator no more expressing. Mind absolutely concentrated. Hence Psychic door opened again for some one's sweet appeal! Stream of transparent water thrown supramentally. Seems, playing in lovely waves. So beautiful, can not expressable by mouth. All on a sudden, one miraculous sound learnt with appealing message. only affectionate arms look forward. Fine jingle of melodious tune vibrated herewith; come unto man—come in caves of my super excellent heart.

Myself been attracted to look after your hard devotion. Since age long, for whom thyself devoted—I am that VICTOR LORD! only.

Love tears of supra mental current floated with two wordings. The extraordinary beauty dangles as staggered over, with shining tearful eyes.

One drop of tear fall on the Psychic mirror of concentrator. With confusing sight observed supramentally, heart loosing, ever beautiful lovely FINEST! standing on.

No thought advance more, all vanished in sweet Victor for ever.

How grand gaining of man! Awake horripilation! Every one of Physical globe, intend to dive into supreme beauty. Merely appeal of moment's hope not enough for the special factor. It is very easier to speak but very hard to tie up in threadless sacred refraction. That is the symbol of fine devotion to knot in one mood constantly.

Once every one must have to come over here, otherwise no rest at all. People engaged with various tricky games on the earth butno enjoying little peace even. Intoxicating easiness of vanity and false expectations of domestic affairs surrounded by out and inner inspirations.

There is the only way to cut up bindings, self surrender most essential in meditation. By increasing deep eagerness for realising the greater globe, Psychic obstacles must have to be loosen.

Dense devotion after long age, man none of the worldly people to day. Human existence of himself absolutely transformed in nectar LORD. The supreme Victor of new land embraced thyself, thus vanished in Infinite ONE.

Feelings of difference, observed no more. By strong dedication man totally changed as pleasant LORD. Innumerable distrubances occurred ! Many times spent in concentration but never realised such extra-ordinary peace, all are in vain, in comparison of special one. Heavenly thoughts proceeding on. No more turn re-birth in human body. Always must remain with joy, headed by the petals of Parijat.

He couldn't free even from the surroundings of vanity camp till that period. Therefore dived into imaginary deceiving Heaven. In exchange obtained cheat tactics of woman. Females of this category occupied special places in so-called Paradise. Where such wickeds are living. Gods can not spare moment any; lower level concentration of thinker sure have to downfall.

Particularly the Parijat which dress in chignon, that is not blossoms of supreme world at all. In way, absolutely decorated in vacant eyes. The lowest ranking jealous gods who afraid to see the uplifting of holy devotee, the petals are decorating in the hands of inspiring females for drink intoxication. Insects form in so-called flower, dried even plucking after.

Fabricated goddess where from sent, the beauty of paint refracted, person long time spent even false meditation of the same. The soul disheartened by bogus misleadings. If strongly tie up with the flow of earnestness, the Psychic rainbow look forward to super fine world. Here in tuning like

PIANO, just to tear up the imaginary gloom of so-called devotional place. Thus feeling of sacred touch, inner entity dive into depth of grand contemplation.

Just to gain salvation immortal soul dived into extra-ordinary pleasure in the caves of superfine heart of LORD Lovely. Lot small souls lying even on peace. Some period after, newly salvationist etherial bodies of men, discharged in vast glowish land of greater world.

To come out of spirits observed splendid area full of Light Divine. Every where unique games of beauty presence. With embracing pleasure of highest authority, focused shadow of reflection from His direct glimpse. Immortal soul roaming in various parts of supreme globe in fine stream of peace.

Now far-sightedness cleared. From the grand lovely world seen clearly games of countless globes. Suddenly, on thinking mood reflected the memory of Physical structure. Indeed felt shock to look global existence. How long hard devotion had to do in the prison of body ! Innumerable mental sorrow got from the people of illusive world ! They cut joke ! Uselessly insulted in various ways! Even could meditate, that's why, uttered mad, hypocrite and else others!

One side felt disturbances from the notorious people. Vulgaric dirty action occured from various circle in which never concentrate deeply. On the other chapter—though could condensed by hard mental controlling, particularly that way, too many obstacles advanced! For which imaginary land meditate himself, there from sent nice tactful dancers even. Devil's terror surrounded like dense dark canto. Who will show flames of Light? By following dangle of focus, forward march to true and everlasting green land.

The Physical body left for ever since age long, which in feel extraordinary pleasure. What awful fire-trial keeps ready to break up meditation! Just gazing at the Physical globe amazed—all covered with a peculiar fogy atmosphere. People are shows like insects in it. There is the only way of rescue from this blunder, just to complete surrender with deep eagerness. For the sure glimpses of melodious tuning, appear in technicolour rainbow.

So many thoughts of topics focused in memory to-day. Those feelings are now, like pharse. How dreadful vanity of camp found ! Is it easier to emancipated within it ?

Thinking of the globe became very forlorn. Just to standing on, supra mental ground and extreme peace, back days of bitter ideas vanished away, there by, focus a twinkle, like dangle of lighting.

One Angel came forward to open his Divine wing. Petals braid on his head. Face shows very staggering. Full of lovely nectar smiling. This is super fine affection, not to calculate hypocritic regard of the earthly peace. Where in Physical existence, dramatise the cheap love of vulgaric buggards. Particularly the place where curved smile spread by opening teeth and expressing tactful languages. That's call worldly love ? That also can not be permanently. Just to set a subterfuge netting of hypocricy for few days in connexion of selfishness and global illusion. Notorious sense constantly crawl only in mental expression.

Circulating the fragrance of flowers said, you too one of us in the super natural world. How do you feel over here ? Let us fly in the blossoms grove.

Fresh existence reply, you possess wing, gladly can fly over at ease. Tell me, how can I accompany you ? Messenger ! Go yourself please. Recently exit from flames of Divine Light of super fine LORD. Just sitting over here, observing lovely environment of new world. So absorbed myself in thinking of vanity land. Enjoying very well, to have fragrance from you.

Opening wing, speak with laughing, brother ! You also Angel of this glorious land. By hard devotion who reach here, every one transform sacred messengers. Whatever looking, all over here, the beautiful formation of Lovely LORD. Grand Almighty focused His holy hands on embracing mood to keep in tender heart, the lives of innumerable worlds. Required only, link of deep earnestness in Psychic mirror.

You too possess beautiful flight. Once step in noble heart of loveliest LORD, every one form like this grand Land. Never alteration for any day. Who affectionately reach in His lap, transform sure in Divine self for long last. All equal observe here, there is no touch of unequality; neither indifference at all. Nothing unhappiness finding over the grand place except translucent pleasure.

Yes, brother messenger ! indeed, it is an extraordinary ground. Happiness of any kind presence in comparison of this fine lebel ? Just metamorphosed after in super LORD, reflected incessantly in mental focus, stream only of regard Divine.

Brother, where formed my wings ? Still can not realise very well ! Feeling only become very much etherial light. Showing own flight other's folding one opened. To move a little, new Angel fly on flaffing. Enjoying full of emotional super joy. Just some while on wandering, returned to old one.

Well ! understood new, you too got wings. New existence who reach in the holy land, firstly delayed to realise themselves. Therefore appoint one in-charge, to adopt the needful like old one. Your preliminary observations look forward depended upon me. Hence, strolling in the blossoms grove accompany with you. So you must not feel any difficulties. Any way, let us go on flaff together in sacred bush.

Very fine, that must be done. Uttering this word ready to fly.

Duet messengers flaffing in same category. Fresh one say, co-friend, actually ! how nice grand Land ! Wherever gaze, all looks beautiful palaces. There are so many Angels flaff over here, horizon from far away ! Are they proceeding towards supra mental grove like us ?

Companion reply on flaff, yes ! every one going to beautiful garden. There is no bar for free movement with self conscious in the holy land of pleasure Divine. Each, as an individual manifestation of transformation in super fine LORD. Both of us also bearing in same calibre.

March forward a little, got down by folding wings. Circulation of fine fragrance, presence over here. So that flow of scent blowing to new one.

In the mean time Duets also much advanced forward. By enjoying the nectar fragrance look each other. New existence say, bravo ! become lunatic to feel the beauteous atmosphere.

Other one reply, just started on your first step ! So many days will pass, observe only new edition of fore-front in Super fragrance. Just see ! how nice extra-ordinary mental grace ? Let us get down. Are you not feel any difficulties to flaff on ?

Nay messenger, not a drop pain feeling at all.. Just swing a little, fold up the wings companions moved. Opening the Petals, Divine blossoms sweetly smiled in lovely soothing breeze.

New one say, how grand petals ? Are these style of Parijat ? The unique beauty of stream reflected on the same.

Replied—nay, new one ! These are not Parijat. Those can not stay over here. That flower exists in the garden of dancing ballets of jealous and hypocrite gods. That is dirty rotten. There in, insects form, dry too even. Reason was the same for your fallen from uplift of false heaven. Halo ! Just see the actual sacred place ! It is true, the gods are immortal over there.

In spite of, they can not reach here. They also doing hard devotion to come over this fine place. Those are in more higher stage than human globe but containing so many low habits like ordinary soul, enjoying the flowers full of insects and all.

Well ! knew lot talks from you. Visit even Heaven, Parijat and dancing ballets. How do you know—meditated in false direction ! It was vision to me. Saw only one beautiful notorious woman. Her name is URVASHI. Observing that cliquey chapter dived in, to way of concentration with Physical body. Now gazing all transparently, focusing psychic lens media of supra mental eyes; from the vast area of finest supremacy.

Tell me holy Angel, how did you know the position of my concentration ?

Speaking clearly all ! listen, converting after in grand LORD ! Countless globes found accurately. In every moment peoples' Psychic stage, carried in which way, all nook and corner reflected in VICTOR of Super Divine place. I also one of His glorious existence. Therefore, must have to be seen.

Very fine, observing yourself every thing. On the other hand, I too omnipresence of Supreme. Then, why can I not looking inner sight of the lives ?

Yes! There is no distinct between ourselves. Recently exit you from His caves of sweet heart. To enlightened your higher mental sight depends upon me. First of all as I awakened to realise the existence of wings to move out. Thus showing Psychic lens. Just touch me only, I too come in contact with the blossoms of Special Supremacy. So that you must look everything. There arise never need of awaken anything to this glorious land. You too sure be able to move with joy like others.

Sometimes you would feel, we all vanished in flames of Divine Light. Exit again from Supremacy and wandering in evergreen joyful grove.

Yes, messenger Divine! Just to touch your blossoms jewel, far sightedness of mine clearly opened.

Now I realised, how gazing yourself far to horizon of any point in the countless globes. Myself too looking clean all nook and corners. How nice, accurately observe inner links !

To day succeeded depth of my chapter for higher concentration. Soul was imprisoned, innumerable times in eighty-four millions of different lives. Then by conversion took birth as man. Feeling horripilation ! So many times fall down, in human world. How long times devoted myself ? Much more times lower fall enough. Merely with contact of mental rainbow, observing hard devotion, gained the Super fine Supremacy.

O ! Lovely great LORD ! Carried up myself for everlasting, in your sacred heart. What joy perceiving in comparison of this superiority ?

Well ! how beautiful blossoms decorated the evergreen leaves of technicolour bush ! Are these not dry any time like Parijat ? Never drop on ? These are the supramental flowers of capital globe.

Message come out of old one—brother, not only blossoms of super fine land, nothing dry over this place. Never drop a little bit. Every thing presence as a grand symbol of everlasting peace.

What is the name of this one ? This is so-called Heavenly flower under the style Parijat. Necklace of Germy same, decorated in the throat of URVASHI.

Name of the grand one of this extraordinary land is very beautiful—lovely flower—"full of consciousness". Never heard this sweet name any more ! HE—who Divine LORD of Supreme Capital; with the diamond of special heart, Creator of this flower. Here—every one remains joyful, enraptured between each others. Reflecting all complete Divinely pleasure.

Divine one ! your message too full of consciousness. Indeed, every things are ever-beautiful of this place. No days and nights occurs over here.

—Nay messenger, the difference of night and day rejected in human world. We drifted in flames of light Supreme. Not fade at all, in any way. Moon light of the globe even, negligible in comparison of super dangling.

—Is it more beautiful than moon light of Autumn ? In deep night, clearing after the gloomy atmosphere of the sky, the technicolour ray dangle, is it finer than ever beautious ?

Are you not observing ? How you are behind the leaves of eternal green groves ? So that can not realising the focus of flames. Just look forward—removing the petals.

—Cheer you, how grand ! I also drifting over the apex of light. Lovely blossoms—full of consciousness giving joyous stream of contact in my glowish structure. There is nothing distinct between the Supreme VICTOR of greater capital and myself ? Entire of continual peace.

How lower stage of devotion I did ? That's why, the gods of Heaven capabled to fall down by showing hypocrite dance of ballets. Here—free from all buggaries. People medidate on illusive method, the inferior rank of Paradise. Therefore repeats sure fall. Only the tricks of insects of Parijat flow on that particular stage.

Very lovely—full of 'consciousness'—blossoms, how nice you are ? Your holy petals are decorated very well in my wings. Myself also become conscious fully. Absolutely feeling 'salvation' free from all sufferings, diseases and worldly death. In way, great source of happiness enjoying, got no childhood neither oldness. Now I metamorphosed in beautiful existence and belongs to ever youth up to termination of forthcoming new age.

Just march forward a little even, through the groves stopped over there. So many gatherings of Angels moving over here with stream of super fine joy. Each and every one ever beautiful in this glorious land. Sacred petals ornamented in wings. So gracious, decorated finely and nectar smiling omnipresence. No interfering, neither any sorrow nor any kind of insultations etc. found over here.

None will speak to others. There is no distinct presence at all. All are similar to Super Lovely LORD ! Merely games on acting as messengers—Divine.

New one absorbed since long time, to look forward the excellency of last long green leaves of sacred bush. Flapping by, moved away to old one.

—Brother, how do you enjoy super fine vast area ? Are you wishing to go back among the people of human globe again ?

—No friend, never intend to return in manly place. Please do not speak any more like this. Whenever turn mind feels shock ! Do not like at all to be imprisoned several times in Physical bondage. Vanished once in everlasting grandeur land, couldn't go downwards at any cost.

—Indeed, spoke truth. Never fall on over here. No existence of VICTOR Capitals more, than particularly this special one. Crossing the clumsyness of Physical earth, so many times by taking birth in human lives, advance forward on the way of aloft.

Obtaining by, strong opposition to upwards stages of soul, may fall in very lower lebel. Some times spending in monotonous, start again to meditate by adopting modern method. This is the greater devotional link. While after, super meeting must be converted with sweet VICTOR conscious.

Well Angel! Your arrival in excellent supremacy since long ago. Have you got nothing desire? Is your mind never turn to mix with the opposite sex ?No attraction drawn to them ?

What saw of that new one ? Yourself too come over here, since a mentionable period! Do you feel passions, any ?

Never perceive like that in any time. Here shows no sex. Although no symptom of males found even. All are full of lovely atmosphere, thus turned into Infinite ONE.

As you got no fascination at all, why then asking me ? There is nothing distinct between ourselves. Always grand manifestation occuring in nice greater ONE. Therefore no mentionable hankerings awaken over here at all.

If here, enjoyment for the sweetness of females, so many tactfuf ballets like URVASHI of Paradise, could stay easily. Same Supreme Power acting among the males and females in funy dramatising way.

Only in human lives nets of passion scatters. Merely in the decorating room, pictures of hankering among the mankind reflects. That's why, move with the contortions of body, like insects one attract to others. Difference of opinions, jealousy, hypocricy, interfering, clique, tactics etc. only for the so-called Physique. Such an awful mystery, though body finish once, that doesn't mean, the fire of passions must be ended over. By transformation of birth, innumerable times form the human lives. Thereby, long cherished devotion, drawn attract the ballet dance of URVASHI, so, have to be turned back.

There after, if concentrate for truth and beauty, by showing flames of light Divine and tuning the flute, super fine LORD must embrace, caves in his affectionate heart. What result will be seen in the next chapter, that is understanding clearly. Both presence in joyous supremacy.

Only for coating of the body, so many desires peep there in. Here—no question arise of females and males. Neither worry of day and nights, even no feelings of appetite and thirst focus. None need offer any service to others. No body express anger to each other. In way, expecting for service not necessarily despaired. So extra ordinary atmosphere lying over here permanently.

Just see—apply lovely Psychic lens. Look forward to the Physical Globe. People of the place affected with so many hankerings tattered, therefore, restless like insects. Such a lot troubles perceive for the Physique only. We are actually lucky enough, arrived, in supramental existence. Once ourselves too spent there, among the germs of passions.

New one returned in dangle of Light Divine, grand conscious absorbed from the human land. Cirulating fragrance uttered—whatever you told, that is all right. Shock appeared to look after the action of mankind ! I had to suffer among the dirty calamities ! Since long age by hard devotion stepped into fine greater capital.

That's why, the hypocrite features of shadowy nature not marking over here. No body moves far by exciting fire of passions, just expressing curved smile. Every one of us, changed into grand infinite.

Headed with the petals march forward a little, stop there. Many messengers on flapping, enjoy the insert of ever green bush. Their whole etherial bodies reflect twinkling of light. Thus dived into lovely consciousness blossoms, carried with crown of dream land. Looking, henceforth the new one, escort among themselves.

All turned in same VICTOR ONE. Old trainer also entered here. He needn't get any lessons more. Therefore came near and said—yes, new Angel, observed myself, direction of super grand LORD. Do you feel any misunderstandings ?

—Nay, enjoying all right; nothing need to do. Here from not only human place, countless globes observing at a glance, according to necessary. We, all Angels mixed up in same tie. What excellent joy presence, in comparison of like this ?

In the bush of lovely consciousness blossoms, vibrate ether. That's why, nectar fragrance circulated over the place. The Creator of Supremacy embraced by focusing Devotional flames. All vanished in Super Light, folding their strange flapps.

Unique Focus and Diversion of Infinite ONE. Dust—games running on, similar way since having no origin. The inner feelings of super natural play, most unknown to ordinary calibre. Even perceive a little bit, he wouldn't have to stay in manly land by any means.

Spent long days, looked not there a single messenger in Supremacy at all. Merely flames of light dazzling, never fade up at any cost. Needless to mention over here, whether end or begin. Complete peace and full of ever beauty omnipresence here in.

Super blaze of light twinkling on, there by LORD conscious came in refraction. No sound reflected at all, only joyous sweet smile seen. So many Angels observed, exiting from His infinite existence. Opening their flapps gazed at endless horizon. Lovely fragrance over flown with the link of capital dangling.

New one of greater function realised every thing to day. That is known to him very well, as he vanished in supreme LORD. There is no distinct found at all, only pleasure Divine presence for ever.

So exiting the Angels from lovely conscious, brought forward the holy hands with embracing tune. Looking with strong Devotion, more uplifting souls stepping in modern green land. Therefore advancing affectionate hands with tender mood. Just enjoying the direct glimpses, countless-images of grand ONE, continued on limitless plays.

Angels headed the petals wandering in own conscious. New one furnished with ever green leaves in flapp and proceed to other one. He also shows to day beauty of dangle. All are indicates very nice face cutting. Once who vanished in apex of Supremacy, changed into glorious FORCE. That is the greatest topics to add with HIM. Merely who dived in His holy name with human bodies, it is sure, all must gain sacred touch of Infinite.

Messenger look forward. Yes brother ! now you are full of joy, I see ! The manifestation of sweetness, throw focus to the etherial structure. Looks fine yourself. What do you think my dear ?

With affectionate tune of embracing, new one utter, halo ! intending to speak you some thing now. By applying Psychic lens, observed human land previous day. Just present ! too desiring to looks again.

Very well, applying mental lens observe gladly. At the time, you also combined of unique ONE.

—Yes, myself mixed up in Supreme; that is absolutely truth. Constantly enjoy self contentment. Not only human globe, besides more chapters of the same, looking at a glance easily. So that, like to consult with you, regarding other technique.

Old one reply in agreeable mood, very good talk ! Just apply inner ray. I needn't find any more those scenes. Lot observed. Whenever marked, thrilled myself. So unhappy environment, notice once, never perceive again.

Well, applying far sight. Messengers, holy flapp fold up. Throwing the blaze of light, soundless brandish of consciousness flown over. At a first glance, appear human land.

—What ever find, not yet telling ?

Just looking with conscious 'RAY' depth of eagerness of mankind. Well Angel, are those not anxious to come in super natural globe ? Their mind full of lot hankerings. Those also lowest calibre of thinking.

First of all spoke, there are not at all pleasing scenes. Only images of people found. The vulgaric cot in nook and corner of mind observed. Blaming each others for jealousy, thus turned into rotten tank. Circulated from every point of view, slow poison by dealings.

Why people fighting among themselves ? What they gain in that way ? They are well furnished in decent clothes. Externally shows very good enough but psychically wriggling number one. No simplicity, sincerity and easiness focus at all.

Observing you with length wise conscious the outer and inner link of mankind. Yourself too must understand, what is the cause of happening like this ? Step after in greater capital, ourselves formed in same tie. What I speak sure agree with me. Cause was this—the shadow of vanity throw on the earth. In way, not a Physique shows, seems a tiny camp. Psychic tricks constantly running within it. Crossing by, it is very difficult to develop up lift, in spite of so many obstacles. Therefore remains busy with false appetite. That is different topics, to come along in super fine globe. Can they imagine, is there lovely one, except Physical earth ?

—Well messenger, should I move in their mental flapp with my flames of Supremacy ? There by, would have to understand, they are nothing but insects as prisoners of an individual camp.

Nay, new one ! shouldn't do it in any way. Because devotional works in human body divided into various parts. Beyond the expiry of Physical existence, have to stay in several etherial stages. There too vanity of camps presence. In way, lighter more than the manly globe. Time will be factorised by transformation. They could have to be realised, where is the misfortunate place ? Though awaken them, it is impossible to adopt. Therefore not to disturb please. Jnst look very carefully.

That's why, wanted to know from you. As become expert, observing from here since long period. Myself reached recently, crossing several stages come in; once indeed intending to have a short look.

Halo ! Old one, astonishing to see manly atmosphere, without sufficient money none perceive happiness ! Find once please, for the particular cause, how many misunderstandings going on ? Threaten there each other, cheating and taking lot bribes in various forms. Some are swindling also in several links. Being owner of vast wealth, why not enjoying mental peace a little even ?

—How much will you see ? Whatever find, unspeakably thrilled ! Myself do not like to gaze further that dirty meanness, Co-Angel !

In spite of multimillionaire getting no peace at all. The people earn lot by service. Though in search of tricks for extra ways. Are there cessation in it ? Constantly hankerings after dunghill mentality, more over, peeping to hunt several others. The person who secure wealth in dishonest way, here in, invite destruction. So awful domestic world !

Their wives and children are suffering from various diseases in every homes. So that crying for relief of the endless sorrows, running to different kind of people. They also wait for vulgaric chance. Their pocket too fullfill with the money of tricky heroes. This is the speciality of domestic people. In way, changed into hell gate.

Just see ! What dreadful situation in human globe !

Rich puppets getting no peace even to hoard money in their hidden chest. So greedy, sitting near to the Image of Deity, searching for way more; just close the peeping eyes hypocritically. Indeed, astonished to see all these buffooneries. So apex of supra mental light focused so far, marked only, manufactory of money making process.

In way, unhappy mood shows among the mankind of the earth. Thus enjoy so-called pleasure. All are spending restlessly with dunghill mentality. How pitiable condition !

Psychic flapps full of anxiety, although marks happier in outlook. Their loving darlings are whimpering in every homes. Where myself lived, there also gazing similar. All places decorated with the tricky nets. How pulling the days in awful dismay ? That is totally beyond imagination !

Persons spending in human globe with monotonous tragidy, thus what will be their next stage ? It is sure, doing all these kinds of mischievous activities, never obtain holy fine etherial place.

Old one uttered, hearing all talks—how ! had I not spoken ? Thrilled myself look after all those calamities. The people who are engaged with lower thinking, beyond Physical death, which way they will gain lovely environment in next world ? Even, out of dream for so-called heavenly Parijat, what is shown in chignon of URVASHI. That too require higher meditation. Then may acquire wisdom, it is definite cause. Hence, what method of Devotion will be done ? That is the question for blaze of fire, which will be brightened in same tune.

One visit ballets of lower heaven, can not move here; then what is the way of concentration for VICTOR globe ?

One stage fixed up already, who always engaged with worse thinking. There is no limit of sorrow over the spot. That's call hell and earth bound chapter for spirits. Yourself must be thrilled to observe painful scenes.

It is impossible to step in supra mental land till decorate in hypocritic furnished room in manly place. The capacity of puppets of that location, obstruct in the said area. Then where is the chance of up lift ?

Lovely LORD all can see. In imprisonment of vanity camp, feels no hankering of happiness or eñjoyment. They got no Psychic satisfaction at all. Hope after hopes, enjoyment after pleasure run over like mirage, still indomitable expectations peep. Some times health broke, many occurrences arise, waves of misfortune blown over the families. In spite of these sufferings, never search out of the way for cessation ?

How many wordings learnt from you. Looking forward now, who will bring the complete ruins of passions ? That's call dreadful hell and place of the departed. Alas ! how awful scenes of the same ? It looks deeper like a well, covered with dense darkness. No brighten, neither tiny light twinkle even. Therefore incorporeals are crying pitiably in the dunghill hell, because nothing for eaten.

Always nuisance smell circulate over the lower environment. Hence no aloft at all, although trying utmost. Some times like fruits, a few fall on. Actually it is not victuals, in way. Probably illusive substance. The spirits of hell run fast to catch those but undone ! None can touch properly due to fighting, quarrelling among themselves. It vanish like sunken stage in the heap of rubbish.

So painful, sadden atmosphere; that is beyond imagination. According to dirty activities in human globe, soul bound to suffer, over here.

In spite of earnest trying fail to eat. After death who get place here, all of them could spared in jealousy, hypocricy in the Physical existence. Due to greediness of wealth circulated the net of tactics by swindle. Those incorporeals constantly undergo.

After long endurings get a chance for lift a little in other stage. Name of that place is world of spirits. Little higher than hell. Enjoy here short independence, freely movements can be done but unable to proceed up lift. That's why, hankering with passion, roam among the human being as earth bound. Some times for fullfilment of desire, disturb the people even.

None can guess the dramatic painful cot for tricks of this kind. Any way crossing after the next world, must have to obtain severe punishment. So wearing the mask in disguise, possible to cheat the mankind but can not bluff the supramental eyes of Almighty.

New one uptill now, looking forward stages after stage uttered amazgingly, I do not like to observe more at all. Therefore, mental flap vanish in lovely super fine creator.

—Halo ! did I not speak you earlier ? Reaching to top most, never wish to look after any pictures of low lebels. Who intends to see indecent chapters just leaving the ever beautiful environment ?

Where myself lived in human globe observed too. Long days passed, leaving them come over here. None feel anxiety at all with the occurings of sad absence. Seldom consult deceased didn't keep any wealth behind for us. Only avoiding ourselves, could devoted in lonely place. They covered with so infatuation and coated with vanity, no sparing times for reckon of late one !

Among the human race too, there some evil imps live for interfering, jealous and notorious activities. Their features shows manly but mentality vulgaric categories. They are nothing but screen playing with the devilish Physique. The lives beyond death too most fearful.

So people should do noble works with clean heart and energy. Otherwise must be placed in sorrowful environment without fail.

Once observe the misfortunes of hell, never feel to look again. If transform in action of ghost wonder in the illusive shadow of earth. Just to realise mental weakness of the people, entering in themselves with dramatic way, there by, enjoy momentary physical satisfaction. They got no accommodation, among the human beings nor in upper stage.

After so many endurings sure have to feigning. Awaken that time, manly land is the only place where devotion may concentrate deeply. Due to achievement, change of creation sure. Therefore, considering to day for special world incompatible as fun.

Although perceive golden oppurtunity, one's unconscious flap circulate as ray of reflection. Following with the link, mental mirror forthgo on the way of offerings. There is no chance for peace at all, till cessation. So, no other way will be found for pleasure Divine on the link of desires and fascination as well. Hence, with unspeakable sorrow and misfortune in this circumstances, sure to become inferior than insects of any kind.

There is only definite direction of pause, which look forward in the way of Supremacy. Besides, there is no other alternative at all. No dozing will be felt even with devilish thinking. Therefore platforming by the fancy mood, never be delightsome among the domestic environment too. So overwhelm ! all times with the anxiety of tumbling.

Examples of this description found almost. This type of spirits, in disguise of decorum, wandering with greed, thirst. Here by, expecting of physical enjoyment, psychic flap curved in different ways. Never remember the memory of relationship even. Touch of heart constantly sunk in selfishness of intoxicating mood. For their consciousness and manifestation awaken the tune of VICTOR, force to death, beloved family and as well children, just to cease from the dunghill appetites.

Limitless illusion of people broken up. Thus, by moving flap whispered supramentally, do not look forward on the link of hankerings. That is not the true path for pleasure. No Super Light observe, full of darkness presence. Only hit for mirage of bogus attraction.

Look advance, mask of your personal interest destroy in super flames of fire. There by, direction of cessation, must enjoy yourself grand peace. Just devote and step in finer world, it is sure be able to devise beautiful capital. Full of everlasting palace must be seen there. No vanity of shadow focus at all. Therefore, sure enjoy fullfilment of complete joy up to termination, since having no origin.

There is nothing false affection of heart observe in any stage. Deities never make sound, even in the lower Heaven of URVASHI. Only nectar voice blowing from onwards, come unto man—step in the caves of my sweet heart.

On the other hand the strength of devotion, occasionally break up and fall in distinct forms. Thrill ! if feel. Most of the people meditate Heaven like this.

So that, none shouldn't bent to consecration. Be off always, atmosphere of the clumsy environment. Dive into ocean of consciousness, for the gaining of Light Divine.

Never advance for any hankerings. Vulgaric souls formed their cot in queer manner. Hence, features of lowest calibre constantly move out of inferior appetite. Therefore, for holy sacrificial chapter essential, just obtaining the supramental peace of glorious capital.

Forward march, to the finest world, just crossing after the several stages. Do not proceed towards the so-called Heaven—only move, where extraordinary globe situated, surrounded by many garlanded palaces.

The lives who lift up over here by rigid devotion, all transform in Divine messengers. Never fall in any way. LORD SUPREME must embrace by His supernatual hands.

Here by, flow over the brandish of dedicated souls, speedy upwards through the link of greater abstraction. Therefore, it is sure to be vanished in ever fine VICTOR.

Look forward, be corroborate in deep concentration. Must realise, blaze of long beautiful flames. There by, two wordings must be blown. Hence, surely it will be changed in Truth-Divine, for ever technicolour land.

Listen—listen, invitation of cordial welcome knocking from supramental globe.

Be—beautiful, very beautiful permanent, constant beautiful and be full of limitless beauty, since having no origin.

Very nice voice conveying. Come unto man—vanish in—caves of My DIVINE—Super fine heart.

Forward look—for ever forward, at the limit of the turned is the Light Divine, at the limit of the fight is the Super VICTORY.

Lo ! I am the OMNIPOTENT of all the creations since Self-Existent. Dwell in special place where eternal peace, beauty, truth, sanctity and Love omnipresence.

SUPER PEACE UNTO ALL

CORDIAL PEACE ! BEAUTIFUL PEACE !!

EVER PEACE !!!
